## COURSE OUTLINE

**Programme:** MBA

**Name of the Course:** Behaviour in Organizations

**Core / Elective:** Core

**Credit:** 3

**Academic Year & Term:** 2025-26; Term I

**Course Coordinator/Faculty:** Dr. Sanjay Singh, Dr. Rinki Dahiya, Dr. Parul Malik, Dr. Parijat Lanke, Dr. Sumagna Bhowmick

**Email:** [sanjay.singh@iimsirmaur.ac.in](mailto:sanjay.singh@iimsirmaur.ac.in), [rinki.dahiya@iimsirmaur.ac.in](mailto:rinki.dahiya@iimsirmaur.ac.in), [parul.malik@iimsirmaur.ac.in](mailto:parul.malik@iimsirmaur.ac.in),  
[parijat.lanke@iimsirmaur.ac.in](mailto:parijat.lanke@iimsirmaur.ac.in), [sumagna.b@iimsirmaur.ac.in](mailto:sumagna.b@iimsirmaur.ac.in)

### Introduction to Course /Course Description:

An organization is a purposive social unit intended to harness human skills for creating products and services of social and economic value. However, a deeper insight into human nature and the nature of organizations is needed to address this purpose. The present course offers an in-depth insight into the conceptual and applied aspects of Organizational Behaviour as a discipline and its applications for analyzing, managing, and predicting people's behaviour in the group and organizational setting.

The course begins by offering a historical overview of the evolution of the discipline and locates its place in the present management literature in light of the latest research and theoretical perspectives. Through various topics covered in this course, the instructor discusses the dynamics of human values, attitudes, personality, emotions, motivation, group, team behaviour, leadership, power, and political process having a bearing on managerial effectiveness in the organizational setting. The course also includes emerging topics in organizational behaviour, such as organizational behaviour in a post-pandemic multicultural world, Gender, diversity, inclusion in the workplace, and emerging disciplinary thrust toward positive organizational behaviour. The instructor will follow a case-oriented discussion approach for each topic by bringing relevant business case studies, examples and exercises into the course.

# Indian Institute of Management Sirmaur

## Course Objective and Key-takeaways from the course

*This course is designed to:*

- Provide a robust conceptual understanding of the behavior of people in organizations in the post-Covid world.
- Develop students' abilities to understand individual and group behavior within organizations.
- Impart organizational behavior theories and frameworks, which can be applied for thinking and reasoning about the dynamics of organizational situations.
- Provide opportunities to practice the use of these conceptual frameworks through their application to organizational problems.

*By the end of the course, a student should be able to:*

- Understand and explain individual behavior and its implications in organizational settings by appreciating personality, values, attitudes, emotions, perception, decision-making, and motivational theories.
- Understand and explain leadership, group, and team dynamics as well as their implications in the organizational context. Appreciating power dynamics and politics in the organization.
- Understand the interplay between various aspects of individual and group-level attributes and their role in problem-solving.
- Develop the competence required to work effectively in a team in the post-pandemic world.
- Appreciate the organizational context and apply relevant contemporary organizational behavior theories, concepts, and models in order to analyze and act on organizational cases and issues.
- Differentiate between the various leadership models, recognize own and other's leadership styles, and infer consequences of leader behaviors in given organizational situations.
- Analyze and appreciate the role of social values in an Indian business context.

## Programme Level Learning Goals

1. Possess the ability to identify the importance of organizational behavior concepts for personal and organizational effectiveness.

### Learning Objectives

Our students would be able to:

- a) Recognize the basic organizational behavior concepts and essential interpersonal skills that impact both personal and organizational success.
- b) Learn to identify and describe contextual perspectives on organizational behavior.

IIM SIRMAUR

## Indian Institute of Management Sirmaur

2. Possess the ability to explain individual behavior attributes and their implications in organizational settings.

### Learning Objectives

Our students would be able to:

- Explain the nature of individual differences and their implications in organizational settings by appreciating different individuals' personalities, values, attitudes, emotions, perceptions, motivation, and decision-making.
- Enhance their ability to understand and appreciate the role of stress and emotions in effective functioning of an executive and develop the skills to manage stress and emotions.

3. Possess knowledge of group and team dynamics and the interplay between various aspects of individual and group-level attributes.

### Learning Objectives

Our students would be able to:

- Identify the core group performance factors and stages of group development and the implementation process in creating new teams.
- Recognize the primary benefits of teams and understand how managers can promote effective team performance and team competencies.

4. Differentiate between the various leadership models, recognize own and others' leadership styles, and infer consequences of leader behaviors in given organizational situations.

### Learning Objectives

Our students would be able to:

- Discuss the roles of leaders in an organization.
- Trace the early and contemporary approaches to leadership.
- Understand and analyze how leaders can positively impact their organizations through building trust and mentoring.

5. Understand the crucial role of power, conflict, and negotiation dynamics in the organization.

### Learning Objectives

Our students would be able to:

- Identify power or influence tactics and their contingencies.
- Develop an understanding of the causes and consequences of abuse of power.
- Recognize interpersonal conflict management strategies.

6. Develop a growth and diversity-oriented mindset for harnessing diverse skills and behavioral potential among employees in organizational setting

### Learning Objectives

IIM SIRMAUR

## Indian Institute of Management Sirmaur

Our students would be able

- a) Acquire the ability to explain the challenges to developing a growth mindset
- b) Examine and frame diversity policies for organizations operating in a multicultural setting
- c) Experience well-being and positive mental health at work

### PEDAGOGY

This is a primarily business case and simulation-based course. Students are expected to read all cases thoroughly, prepare for classroom discussions for all sessions, and test their hypotheses in a safe and simulated environment. The purpose is to ensure that the concepts learned are understood in the context of real-life organizational problems and the attendant managerial dilemmas. It is hoped that the learning would add to the repertoire of managerial capabilities to deal with problems related to organizational structure, processes, and functioning. Participants will bring their learning to the fore through the group project on the underlying theme that will run through the entire course: 'Managing Self for Managing Others Effectively.'

#### **Pedagogical Components in Course**

The present course will primarily include the following four types of pedagogical components, among others.

##### *International Component in the Course:*

The present course contains relevant case studies based on various international organizations and protagonists operating in a global cross-cultural environment. Many books and reading materials prescribed for this course have been written by international experts and authors. The book 'The Human Side of Enterprise' by Douglas McGregor is recommended for developing intellectual core about the subject, while Prof. Jai B. P. Sinha's book 'Culture and Organizational Behaviour' is recommended to develop culturally relevant knowledge of the subject. The instructor and students may bring additional indigenous and cross-cultural examples from other scholarly sources during the classroom discussions.

##### *Industry Component in the Course:*

Apart from numerous industry cases and examples as outlined in the session plan of this course, a certain percentage of the total lectures of this course will be delivered by suitable industry experts as per the guidelines of the MBA Programme Manual. Moreover, as part of the evaluation component, students would be assigned industrial-oriented project(s) as individuals or in teams to enhance their applied learning.

##### *Technology Component in the Course:*

The present course will contain around two management simulations conceptualized and designed by experts in the relevant domain topic. The algorithm of these simulations will require students to progress in a stepwise manner, reflecting the conceptual clarity of the subject and imbibing the

IIM SIRMAUR

## Indian Institute of Management Sirmaur

overall learning goals of this course. Moreover, the course may also require students to receive real-time inputs such as feedback, practice quiz, presentation, and additional content.

### *Research Component in the Course:*

The instructor's discussion and presentation in the classroom would incorporate the latest research, as far as possible, drawn from the scholarly journals surrounding the subject matter as per the course outline.

## **EXPECTATIONS OF PROFESSIONAL ETHICS**

Students should adhere to the protocols of academic integrity as laid down in their MBA program manual. Plagiarism, fabrication, deception, cheating, and sabotage are examples of unacceptable academic conduct. Please consult the MBA program manual for the relevant sections.

## **HOW TO SUCCEED IN THIS COURSE?**

This course intends to be an Organizational Behaviour course intending to offer deep insight into individual behavior dynamics in group and organizational settings. Students are recommended to develop an aptitude for reflective reading and think and act like managers to constantly test, verify, and strengthen their learning.

Moreover, students are highly recommended to read the cases/chapters for a given unit in advance for meaningful class participation and imbibing concepts. Students are advised to complete beforehand their case summary sheets and any other pre-class exercise provided by the instructor.

Students should also make reflective notes while personally reading the case and during the classroom discussion of a particular topic. Students are encouraged to discuss their learning goals and personal progress on Course Objectives with the instructor. The instructor may offer stretch goals and challenging assignments, and students should be keen to excel with them individually and in teams.

## **HOW TO SUCCEED WITH ASSIGNMENTS AND EXAMINATIONS?**

The course evaluation includes a diversity of internal, mid-term and end-term examination parameters to assess the assimilation of learning as per the course objectives and structure. Written assignments and examinations are an important part of the course evaluation. Therefore, apart from their presentation and articulation skills, students are highly recommended to improve their writing skills. Management students sometimes underestimate the importance of academic writing skills. The student's written works in this course should be reflective and scholarly.

While submitting typed project reports/assignments, students should follow the guidelines of writing as prescribed by the American Psychological Association (APA, 7<sup>th</sup> edition). Finally, students should not look at the case in isolation as all cases depict a story centered around a particular theme but touching across many aspects of organizational behaviour. To harness the full potential of their understanding, students should develop a positive self-orientation with an integrative mindset by connecting the learnings from different cases to arrive at a conclusion that balances intuition with logic and research.
