

Human Resources Management

5/1/25

Session 1

In organisations,
people are

- ⇒ cost to be controlled
- ⇒ asset to be developed.

HRM lies at the intersection.

Hard HRM

- Controls headcount, monitors numbers
- Quantitative and calculative work system

Soft HRM

- High commitment work system
- Focuses on eliciting employee commitment
behaviour is largely self regulated

GRAHAM

- Utilization of people abilities
- Mutual benefit with strong employer focus ⇒ sort of Hard HRM!

BRATTON & GOLD

- Strategic HRM
- alignment of HR practices with competitive advantage.

ARMSTRONG

- People as assets
- Collective contribution to organisational goals.

Brewster, Meyerhofer and Moseley

- People as assets + strategy + organisational and institutional context.

HR designs the system

- Managers implement

Note:-

Read a company HRM policies
→ Small booklet.

[ETHR World]

Strategic HRM

→ Strategy → Processes

Capabilities
↓
HR Practices
↳ Results.

Factors affecting HRM		
Category	Factor	How It Affects HRM
Internal Factors	Organizational Strategy	Determines workforce size, skills required, performance systems, and reward structures
	Organizational Culture	Shapes leadership style, employee relations, communication, and engagement practices
	Organizational Structure	Influences roles, authority, reporting relationships, and HR coordination
	Top Management Philosophy	Affects emphasis on Hard vs Soft HRM, investment in people, and HR priorities
	Nature of Work & Technology	Determines job design, skill requirements, training needs, and work intensity
External Factors	Workforce Characteristics	Age, gender, skill levels, and diversity influence HR policies and practices
	Economic Environment	Impacts hiring, layoffs, compensation levels, and job security
	Labour Market Conditions	Availability of talent affects recruitment strategies and wage levels
	Legal & Regulatory Framework	Determines compliance requirements related to wages, safety, diversity, and employment rights
	Technological Changes	Drives reskilling, automation, HR digitalization, and AI use in HRM
	Social & Cultural Factors	Influence employee expectations, work values, and HR norms
	Trade Unions & Employee Associations	Affect collective bargaining, grievance handling, and employee relations
	Globalization	Leads to cross-cultural HRM, global talent mobility, and diverse labour practices

Internal Factors

- Organisational Strategy → Management Philosophy
- Culture → Nature of Work & Tech
- Structure
- Workforce Characteristics.

Competency

- Leadership
- Relationship
- Business

Session 2 [6/1/26].

Talent management

- ↳ Right people → Right roles
- ↳ Right skills → Right costs.

Job Analysis Information

- Work activities
- Human behaviours
- Machines, tools, equipment and work aids
- Performance standards
- Job context
- Human requirements

Steps in Job Analysis:-

- 1) How to use the information
- 2) Review relevant information
- 3) Select representative position
- 4) Actually analyse the job
- 5) Verify the job analysis information
- 6) Develop job description and job specification

Methods

- Job Interview → Observation
- Questionnaires → Participant diary (log)

Strangulation

- Validity increases when the data is collected by various methods

Techniques

- Position Analysis Questionnaires
- US JOL Procedure
- Job Points Model.
- Online Job Analysis

Job Description

- Written description of a job and the type of duties it applies

Person Specification

- Personal qualifications an individual must possess in order to perform the duties and responsibilities contained

Competency Model

Feature	Job Analysis	Competency Modelling
Focus	The Job	The Person
Time Orientation	Status Quo	Strategic Goals
Performance Level	Minimum / Threshold	Maximum / Excellence
Approach	Bottom Up	Top Down.

Volatile Uncertain Complex Ambiguous [VUCA]
Brittle Anxious Nonlinear Incomprehensible
