

Strategic Evolution and Context:-

Strategies are not static, they change with time and context to create unique value and "sustainable competitive advantage", as illustrated by Amitabh Bachchan, Airtel and Jio. There is no single "right" strategy for every organization.

Key Frameworks and Models:-

→ Hambrick Diamond:-

⇒ Analyses strategy through 5 lenses:-

- 1) Arenas
- 2) Vehicles
- 3) Differentiators
- 4) Staging
- 5) Economic logic.

→ Strategy Elements

→ Consists of Analysis, Formulation and Implementation

→ Five Forces:-

→ Identifies competitive pressures from entrants, substitutes, buyers, suppliers and rivalry.

→ Resource-Based Model:-

⇒ Focuses on resources and capacities to build core competencies that are valuable, costly and

core competencies that are valuable, costly and non substitutable.

→ Leadership Theory:-

⇒ Upper Echelon Theory

⇒ Organisation's strategy is determined by the traits of its top leadership.
